

## Goldfish and Koi

### New Life Spectrum Goldfish Formula

A daily balanced diet for all medium sized goldfish. The slow sinking pellet reduces the risk of indigestion or air bloat that can sometimes occur when fancy goldfish are fed on flake foods.

**For:**

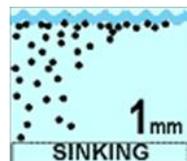

Goldfish and Koi

**Type:**

3mm Sinking

**Sizes:**

125g, 300g

### New Life Spectrum Small Goldfish Formula

A daily balanced diet for smaller goldfish. The slow sinking pellet reduces the risk of indigestion or air bloat that can sometimes occur when fancy goldfish are fed on flake foods.

**For:**

Goldfish and Koi

**Type:**

1mm Sinking

**Sizes:**

150g

A natural red colour enhancing, balanced daily diet that will especially intensify the red pigmentation of goldfish and koi

**For:**

Goldfish and Koi

**Type:**

2mm Sinking

**Sizes:**

125g

**New Life Spectrum  
Large Koi Formula**

A balanced daily diet for larger koi. High quality ingredients such as krill, herring and wheat germ, and natural colour enhancers including algae meal and spirulina. Ideal when showing koi.

**For:**

Goldfish and Koi

**Type:**

7.5mm Floating

**Sizes:**

375g

Advice on feeding and other common questions are answered on our [FAQ](#) page.

## Goldfish and Koi Foods

Goldfish and Koi Foods Intensify the reds in your goldfish and koi with the four all-natural colour enhancing ingredients in New Life Spectrum foods. Best quality krill and herring provide highly digestible protein for your fish, resulting in better growth and less waste compared to foods made with cheaper fishmeals. Vitamins, minerals and garlic optimise the fish immune system ensuring health and vitality.

Dear Ms. Landry,

My name is Dr. Kayhan Kashanchi and I am the foreign commercial manager of Marta Sabz Dasht Co. in Tehran, Iran. My colleague and I met Mr. Pablo Tepoot and Mr. Ian Tepoot at the Interzoo 2016.

I would like to first thank Mr. Tepoot and his son for meeting us and for the warm conversations that we had. It was an absolute pleasure to meet one of the best fish food developers in the world.

As we discussed in our meeting at the Interzoo, it was decided that we place a first order to evaluate the Iranian market for your products and then collect feedback to place the next orders based on that. I tried to include all your products from the price list that Mr. Pablo Tepoot gave me at the Interzoo.

As it was discussed in our meeting with Mr. Tepoot, because we do not have the possibility of remitting the money directly from Iran to the US right now, we are going to import our orders through our sister company in Dubai which is called Taj Al Mulook General Trading LLC. I would like you to note that the proforma invoice and all the other documents have to be issued under their name and the shipment will have to be shipped to their address in Dubai. Then the it will be re-exported to Iran. Therefore, the payment will be remitted to you by Taj Al Mulook.

Please feel free to make any inquiries regarding our company or Taj Al Mulook.

Please find attached my first order.

I look forward to hearing from you soon.

Marine

Goldfish and Koi

## Marine

New Life Spectrum  
Marine Formula

A balanced daily diet for all types of marine fish in our popular 1mm micro-granule.

**For:**

Marine

**Type:**

1mm Sinking

**Sizes:**

60g, 150g, 300g, 2270g

### New Life Spectrum Small Fish Formula

A balanced daily diet sized for all smaller fish such as damsels and clownfish in our readily taken micro-granule. Also suitable for shrimps.

**For:**

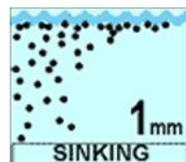

Marine

**Type:**

0.5mm Sinking

**Sizes:**

50g, 120g, 2270g

### New Life Spectrum All Purpose Formula

A general, balanced daily diet for omnivore, carnivore and herbivore, marine and freshwater fish.

**For:**

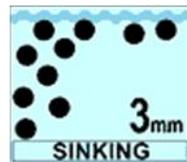

Marine

**Type:**

1mm Sinking

**Sizes:**

600g, 2270g

New Life Spectrum  
Large Fish Formula

These slow-sinking 3mm pellets provide a balanced daily diet to suit all larger fish such as marine angels.

**For:**

Marine

**Type:**

3mm Sinking

**Sizes:**

150g, 300g, 600g, 2000g

New Life Spectrum  
Jumbo Fish Formula

A floating pellet providing a balanced diet for larger fish.

**For:**

Marine

**Type:**

4.5mm Floating

**Sizes:**

225g

**For:**

New Life Spectrum  
Grow Formula

A high protein (50%) diet, rich in Omega-3 fatty acids, ideal for rapid growing-on of young fish, and in our readily taken micro-granule.

**For:**

Marine

**Type:**

0.5mm Sinking

**Sizes:**

75g, 120g, 1600g

New Life Spectrum  
Water Stable Wafers

An excellent food for fry and grazing fish and crustaceans, providing a long-lasting food supply, and ideal for nocturnal feeders. Stable for over 24hr.

**For:**

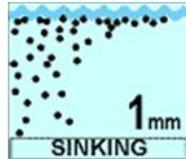

Marine

**Type:**

12mm Sinking

**Sizes:**

125g, 250g

New Life Spectrum  
Thera A  
With Extra Garlic

'Thera A' is a balanced diet packed with garlic (which contains allicin compounds) and especially suited to feeding during periods of stress such as: quarantine of new fish; during disease recovery; and before and after netting and movement. Garlic helps to optimise the immune system and protect against parasites. This all-natural food is particularly useful for fish in marine aquaria where chemical treatments might raise the risk of side-effects. 'Thera A' is not a medication, and disease treatments should continue to be used as appropriate. Available in our popular 1mm micro-granule, as well as 0.5mm micro-granules and larger pellets.

**For:**

Marine

**Type:**

1mm Sinking

**Sizes:**

80g, 125g, 250g, 600g, 2000g

New Life Spectrum  
Thera A - Small Fish  
With Extra Garlic

'Thera A' is a balanced diet packed with garlic (which contains allicin compounds) and especially suited to feeding during periods of stress such as: quarantine of new fish; during disease recovery; and before and after netting and movement. Garlic helps to optimise the immune system and protect against parasites. This all-natural food is particularly useful for fish in marine aquaria where chemical treatments might raise the risk of side-effects. 'Thera A' is not a medication, and disease treatments should continue to be used as appropriate.

**For:**

Marine

**Type:**

0.5mm Sinking

**Sizes:**

50g, 120g, 2270g

New Life Spectrum  
Thera A - Medium Fish  
With Extra Garlic

'Thera A' is a balanced diet packed with garlic (which contains allicin compounds) and especially suited to feeding during periods of stress such as: quarantine of new fish; during disease recovery; and before and after netting and movement. Garlic helps to optimise the immune system and protect against parasites. This all-natural food is particularly useful for fish in marine aquaria where chemical treatments might raise the risk of side-effects. 'Thera A' is not a medication, and disease treatments should continue to be used as appropriate.

**For:**

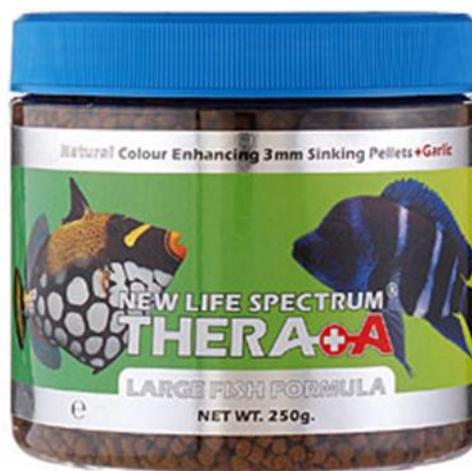

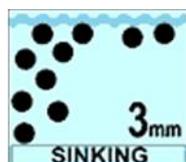

Marine

**Type:**

2mm Sinking

**Sizes:**

125g, 250g, 2000g

New Life Spectrum  
Thera A - Large Fish  
With Extra Garlic

'Thera A' is a balanced diet packed with garlic (which contains allicin compounds) and especially suited to feeding during periods of stress such as: quarantine of new fish; during disease recovery; and before and after netting and movement. **Sizes:**

150g

New Life Spectrum  
Crustacean Formula

A high protein (50%) sinking micro-granule, fortified with Calcium for strong exoskeletal growth.

**For:**

Marine

**Type:**

0.6mm Sinking

**Sizes:**

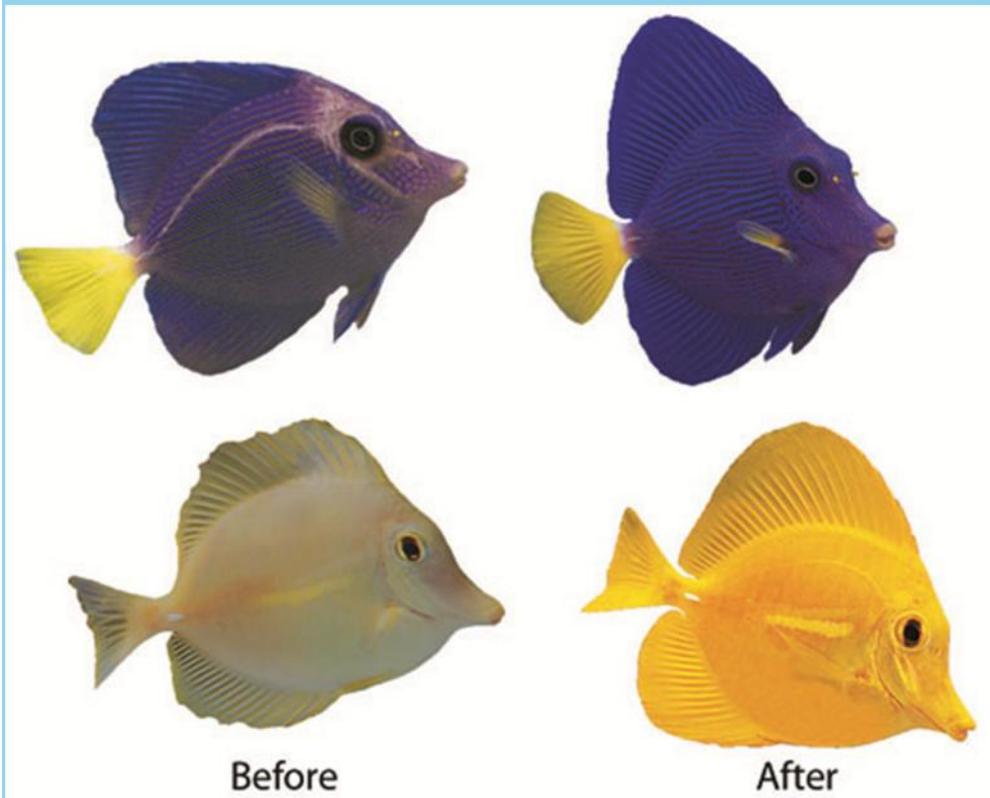

70g

Advice on feeding and other common questions are answered on our [FAQ](#) page.

## Marine Foods

New Life Spectrum foods simply use better ingredients, like krill and herring rather than just fishmeals, to ensure that your marine fish get all the nutrients they need for growth and vitality. High quality raw materials also make the food extremely palatable to a wide range of fish that might previously have only eaten frozen diets.

Four natural colour-enhancers including algae-meal and spirulina, ensure vibrant colouration, and quality fish oils and garlic optimise fish health and disease resistance. Try it, and see the difference in your fish.

Tangs seen before and after exclusive feeding on New Life Spectrum fish food.
